Principal Arguments and Other Matters

A voice message was left for Examiner Won regarding the election of species requirement. Applicants have identified claims 55-131 as corresponding to Species II and would like to elect that species. However, Species II includes embodiments with and without an exhaust chamber. Accordingly, Species II would seem to be generic to Species I and III. The undersigned requested that the Examiner contact her to confirm that Applicants' proposed course of action was in accordance with his intent.
